

Africa Week Rome 2024: a Decisive Step Towards Africa's Digital Future

The **Africa Week Rome 2024** event, held from July 24 to 30 and organized by **Skill on Line** and the **International Bio-Research Institute** (IBI) in collaboration with **Steadfast** and **CIRPS**, aimed to **catalyze dialogue and growth across the African continent**.

The initiative, hosted at both the Great Hall of the Vicariate of Rome and the Auditorium of CONI, tackled crucial themes for Africa's future, such as *education, technological innovation, and sustainable development*.

Skill on Line's Commitment

Skill on Line presented an innovative project for **certifying the digital skills of African citizens**, aimed at **bridging the digital divide and creating new opportunities for youth**.

Representatives Gabriele Tomasi Canova and Lisa Marmorato highlighted how **digitalization and international skills certification** could open new pathways for *Africa's technological development*, allowing young people to be recognized as *global professionals*.

Through this project, Skill on Line aims to **reduce the digital divide** by offering training that will enable African citizens to **acquire essential skills** needed to compete in the modern world, backed by **internationally recognized certifications**. This approach represents a significant step forward for the continent toward greater inclusion and economic sustainability.

International Dialogue and Future Prospects

Africa Week Rome 2024 provided a **unique opportunity for dialogue between African and Italian diplomats**, political and cultural figures, as well as entrepreneurs invested in the continent's development. One of the main topics discussed was the need **to build resilient educational systems** that enable young Africans to access quality, long-term learning.

A central theme of the debate was the **Mattei Plan for Africa**, a cooperation initiative between Italy and African countries aimed at **promoting sustainable growth and curbing youth emigration**. The plan stimulated reflections on how Africa can become a key player in the global technology scene, particularly through projects like those promoted by Skill on Line, which aim to turn young people into tech leaders and ICT investors.

A Step Towards a Digital Future

Looking ahead, **Africa Week Rome laid the groundwork for new collaborations and development opportunities**, placing Africa at the center of the global dialogue on innovation and digitalization. The collaboration between Skill on Line and international partners continues to grow, with the goal of training a new generation of African digital professionals ready to contribute to **technological change and development**.

In conclusion, Africa Week Rome 2024 demonstrated how *innovation and education* are powerful tools for promoting growth and inclusion. Events like this mark **the beginning of a path that will position Africa as a center of technological excellence**, fostering greater international cooperation and sustainable development.
